**Subject:** RE: Reminder! Comments due on DRBC's 106 Progress Report Tomorrow!  
**Attachments:** FW: 106 Grant Progress Report (PCBs - Ongoing PMP Management)

Dear Colleagues,

Below is a table of the number of facilities by State which have been reviewed by DRBC in 2017. Based on NPE reviewed of this information, NPE will not be providing any additional comment.

State	PMPs reviewed by Facility
Delaware	13
New Jersey	39
Pennsylvania	29
Total	81

New Jersey		Pennsylvania		Delaware	
Facility Name	NPDES	Facility Name	NPDES	Facility Name	NPDES
Coim USA	NJ0004278	AKER Phila Ship Yard	PA0057690	AMTRAK	DE0050962

**Subject:** RE: Reminder! Comments due on DRBC's 106 Progress Report Tomorrow!

DRBC has 1,960 water quality results in STORET from 2017 up to 12/7/17. I am not able to determine which projects had data uploaded but there are a lot of nutrient parameters. It appears DRBC is uploading their water quality data. They get data into STORET faster than most of the R3 states.

There are not any emerging contaminant data or biomonitoring results in STORET from DRBC. No recent data appear to be on DRBC's website. We should include a comment on DRBC's progress report asking for an update on these.

**Bill Richardson**

**Subject:** RE: Reminder! Comments due on DRBC's 106 Progress Report Tomorrow!

Can we check to confirm that the following were met?

- Data (assessment, scenic rivers, boat run, extended nutrient, nutrients for model development) were uploaded to WQX/STORET
- A list of PMPs reviewed by DRBC and states and a slide set on PMP activities were provided
- Emerging contaminant sampling results area now readily available
- Biomonitoring results are now readily available

I think DRBC would have sent the PMP information to Joel and Dana.

Who is responsible for checking to make sure the remaining information is reported and/or readily available? If help is needed with that task I'd be happy to pitch in.

Angela

**Where:** n/a

Hi everyone,

I received one comment from Bill on DRBC's progress report. I will be on travel next week starting on Tuesday January 7<sup>th</sup>. Please submit any comments that you have by noon on Monday January 8<sup>th</sup>. You can add comments directly to the document saved on SharePoint. At noon I will prepare the comments that I have and send them to DRBC so that they will have time to go over them to prepare for the joint evaluation meeting that is scheduled on January 16<sup>th</sup>.

Please also see the attached documents that I received from John Yagecic while I was away on leave that pertain to the progress report:

1. Our 106 grant task table for 2017 indicates "DRBC will provide to EPA slides documenting the progress and status of model development" for the estuary eutrophication model development. Attached please find a slide set satisfying that requirement.
2. As indicated in our 106 Grant Task Table for 2017, attached please find a summary of Pollutant Minimization Plan (PMP) activities for PCBs for 2017.

Thanks,

Kim
